

POSTER TEMPLATE FOR #RSNLive17

N Author1*, N Author 2* & N Author 3*

*University of Rugby Science, World

AIM

Briefly introduce the aim of the research.

METHODS

Give a concise description of the experimental set-up experimental procedures, data processing, stats, etc.

- Population
- Experimental set-up (Figure 1)
- Data collection
- Data processing

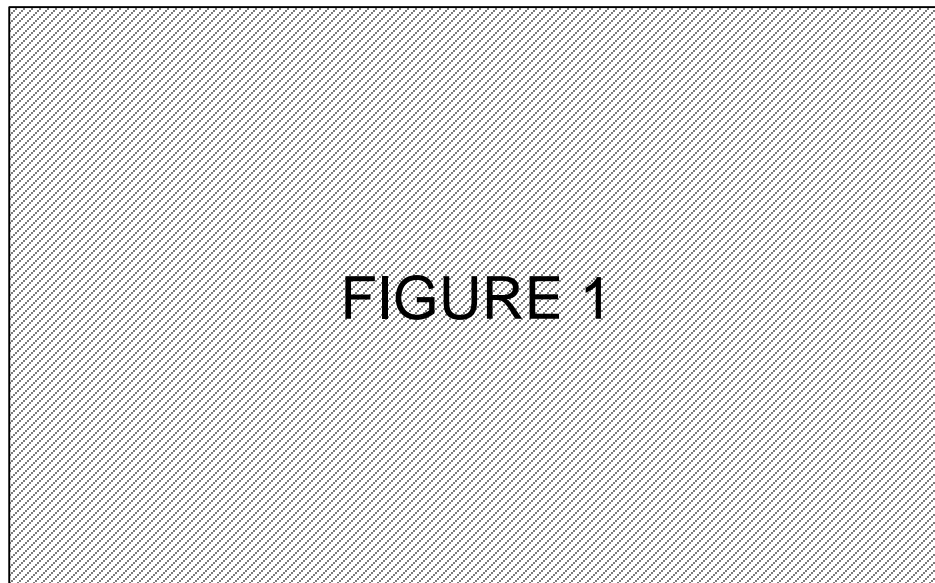

FIGURE 1

Figure/Video 1. Caption of Figure/Video 1 here. Video should be uploaded as GIF.

RESULTS

Report the main findings of the research.

- Condition 3 generated a higher M1 than Condition 1 and 2 (Table 1)
- Other measures were not affected by the Condition factor

Table 1. Caption of Table 1 here.

Measure	Condition 1	Condition 2	Condition 3
M1			
M2			
M4			

CONCLUSION

Summarise your conclusion.
